

KSB - A one stop Technology Shop

KSB Limited manufactures a wide range of world-class energy efficient pumps and valves from its six facilities in India, each dedicated to a product line. An ISO 9001:2015, ISO14001:2015 & ISO 45001:2018 organisation, KSB in India has systematised concurrent production of dissimilar components. All components, each with different specifications, flow through the computer-controlled manufacturing process.

A systematised solution by KSB involves more than merely designing and building the right pump to meet the exact demands of a variety of customers.

All the pumps and valves are offered to the market through a very wide distribution network comprising of 4 zonal offices, 14 branch offices, over 1100 authorised dealers, 6 service stations, over 350 authorised service centres and 21 godowns... All this to ensure, that for every KSB pump and valve in use, there is a KSB sales and service outlet around the corner.

KSB not only engineers state-of-the-art pump and valve technology but also strives to provide an air-tight array of service around pumps and valves. KSB stands by its customers all along, through the entire implementation of a project, offers continuous after-sales service and undertakes a variety

of service contracts and energy audits to provide optimum and cost effective solutions.

At KSB, the relation with the customer is an ongoing partnership, continuing beyond product commissioning. Regular tailor-made training sessions are held, in-house and at the customers’ sites, to acquaint them with selection, operation and maintenance to get the best from KSB pumps and valves.

All this has been made possible by the commitment and dedication of the collective strength of about 2200+ strong team who firmly believe that rewards come through the success of a client’s project.

At the perfect temperature: KSB pumps and valves for heating and cooling supply

Whether a family house, office complex or data centre:
Every building is different and requires the right
components matched to each other to supply an optimum
temperature. As the only supplier on the market,
KSB offers you the complete range of pumps, valves,
automation, drive and actuator solutions for efficient
cooling and heating.

Our team of experts will be pleased to help you provide
the right temperature at all times.

A new era in building services

More compact, flexible and efficient. Service-friendly high-efficiency variable speed in-line pump with dry-rotor permanent magnet synchronous motor. Integrated sophisticated pump functions. Well ahead of the ErP Directive's efficiency requirements. For heating and air-conditioning applications as well as water supply systems.

Benefits :

- Improved efficiency and NPSHreq by experimentally verified hydraulic design of impellers (vanes)
- Little wear, low vibration levels and excellent smooth running characteristics thanks to good suction performance and virtually cavitation-free operation across a wide operating range
- Casing sealed reliably - even in varying operating conditions - by confined casing gasket
- Low-noise, low-vibration motors specially designed for EtaLine Pro
- Space-saving thanks to integrated electronics and high output per size of the compact pump

Maintenance-free high-efficiency flanged or screwed glandless pump with high-efficiency electric motor and continuously variable differential pressure control.

Benefits :

- High-efficiency technology combined with speed control and efficient operation by means of Dynamic Control offer maximum savings.
- Future-proof by maximum energy efficiency, exceeding current energy efficiency regulations such as ErP 2015.
- All-in concept saves investment costs and commissioning costs.
- Ideal for replacing fixed-speed circulator pumps in larger buildings
- Lockable control panel
- Display of fault message

Designed for Reliability: KSB products for HVAC applications

Vertical In-line Pump

EtaLine Pro

Capacity : up to 64 m³/hr.
Head : up to 43 m

EtaLine with VFD mounted motor

Capacity : up to 700 m³/hr.
Head : up to 95 m

EtaLine with IE3 / IE4 / IE5 motor

Capacity : up to 700 m³/hr.
Head : up to 96 m

HVAC Control Panel

Rating : up to 110 kW
No. of Pumps : up to 08 nos
Display : Touch Screen HMI
Enclosure rating : IP 55 / Type 2

Make up water Pump

KHM

Capacity : up to 20 m³/hr.
Head : up to 50 m

Movitac B
with KSB PumpDrive and IE5 Motor

Capacity : up to 125 m³/hr.
Head : up to 228 m

KSB PumpDrive

PumpDrive - R / 2 / 2 Eco

Capacity : up to 55 kW
Enclosure : up to IP55

Circulator

Calio S

Capacity : up to 3.5 m³/hr.
Head : up to 8 m
Pipe Connection : Rp 1/2-1.1/4

Dewatering Pumps

AmaDrainer

Capacity : up to 12m³/hr.
Head : up to 11 m
