More power to fight fire

KSB Limited manufactures a wide range of world-class energy efficient pumps and valves from its six facilities in India, each dedicated to a product line. An ISO 9001:2015, ISO14001:2015 & ISO 45001:2018 organisation, KSB in India has systematised concurrent production of dissimilar components. All components, each with different specifications, flow through the computer-controlled manufacturing process.

A systematised solution by KSB involves more than merely designing and building the right pump to meet the exact demands of a variety of customers.

All the pumps and valves are offered to the market through a very wide distribution network comprising of 4 zonal offices, 14 branch offices, over 1000 authorised dealers, 6 service stations, over 350 authorised service centres and 22 godowns... All this to ensure, that for every KSB pump and valve in use, there is a KSB sales and service outlet around the corner.

KSB not only engineers state-of-the-art pump and valve technology but also strives to provide an air-tight array of service around pumps and valves. KSB stands by its customers all along, through the entire implementation of a project, offers continuous after-sales service and undertakes a variety of service contracts and energy audits to provide optimum and cost effective solutions.

At KSB, the relation with the customer is an ongoing partnership, continuing beyond product commissioning. Regular tailor-made training sessions are held, in-house and at the customers' sites, to acquaint them with selection, operation and maintenance to get the best from KSB pumps and valves.

All this has been made possible by the commitment and dedication of the collective strength of about 2200+ strong team who firmly believe that rewards come through the success of a client's project.

Our Manufacturing Plants in India

1. Irrigation & Process Pumps Division- Pimpri
2. Standard Pumps Division - Sinnar
3. Power Project Division - Chinchwad
4. Foundry - Vambori
5. Valves Division- Coimbatore
6. Energy Pumps Division - Shirwal

Why give **fire** an upper hand?

Fire has the habit of arriving unannounced and thus creating panic of all kinds. There's the fear of losing lives, valuables, property, and even reputation. And so, the last thing one can afford when fire strikes is delay; delay in responding to the situation at hand and the emergent situation. When it comes to fire, India is like a tinderbox and for good many reasons.

- Dry climatic conditions
- Densely populated and congested
- Negligence & ignorance of preventive measure
- Little or no provision for firefighting
- Uninsured property and lives
- Poor awareness in handling the situation

Around the world and particularly in India, KSB is the most trusted and reliable name in production of pumps for all purposes. This makes it absolutely imperative to have a robust fire prevention and fighting system installed and maintained operative for any eventuality.

Benefits of KSB **firefighting** Pumps

- All systems and related services from one supplier
- Broad product range featuring suitable solutions for every requirement
- Certified compliance with all standards and regulations
- Reliable operation and minimisation of maintenance and repair costs
- Comprehensive support for installation and commissioning
- Technical assistance from our own experts and specialist partners

Designed for Reliability: KSB products for firefighting applications

End Suction Pumps

Etanorm G

Capacity : up to 660 m³/hr.

Head : up to 160 m

CPK / MegaCPK

Capacity : up to 1160 m³/hr.

Head : up to 162 m

Mega

Capacity : up to 540 m³/hr.

Head : up to 100 m

Vertical In-line Pumps

Movitec B

Capacity :
up to 160 m³/hr.

Head :
up to 250 m

Etaline

Capacity :
up to 700 m³/hr.

Head :
up to 96 m

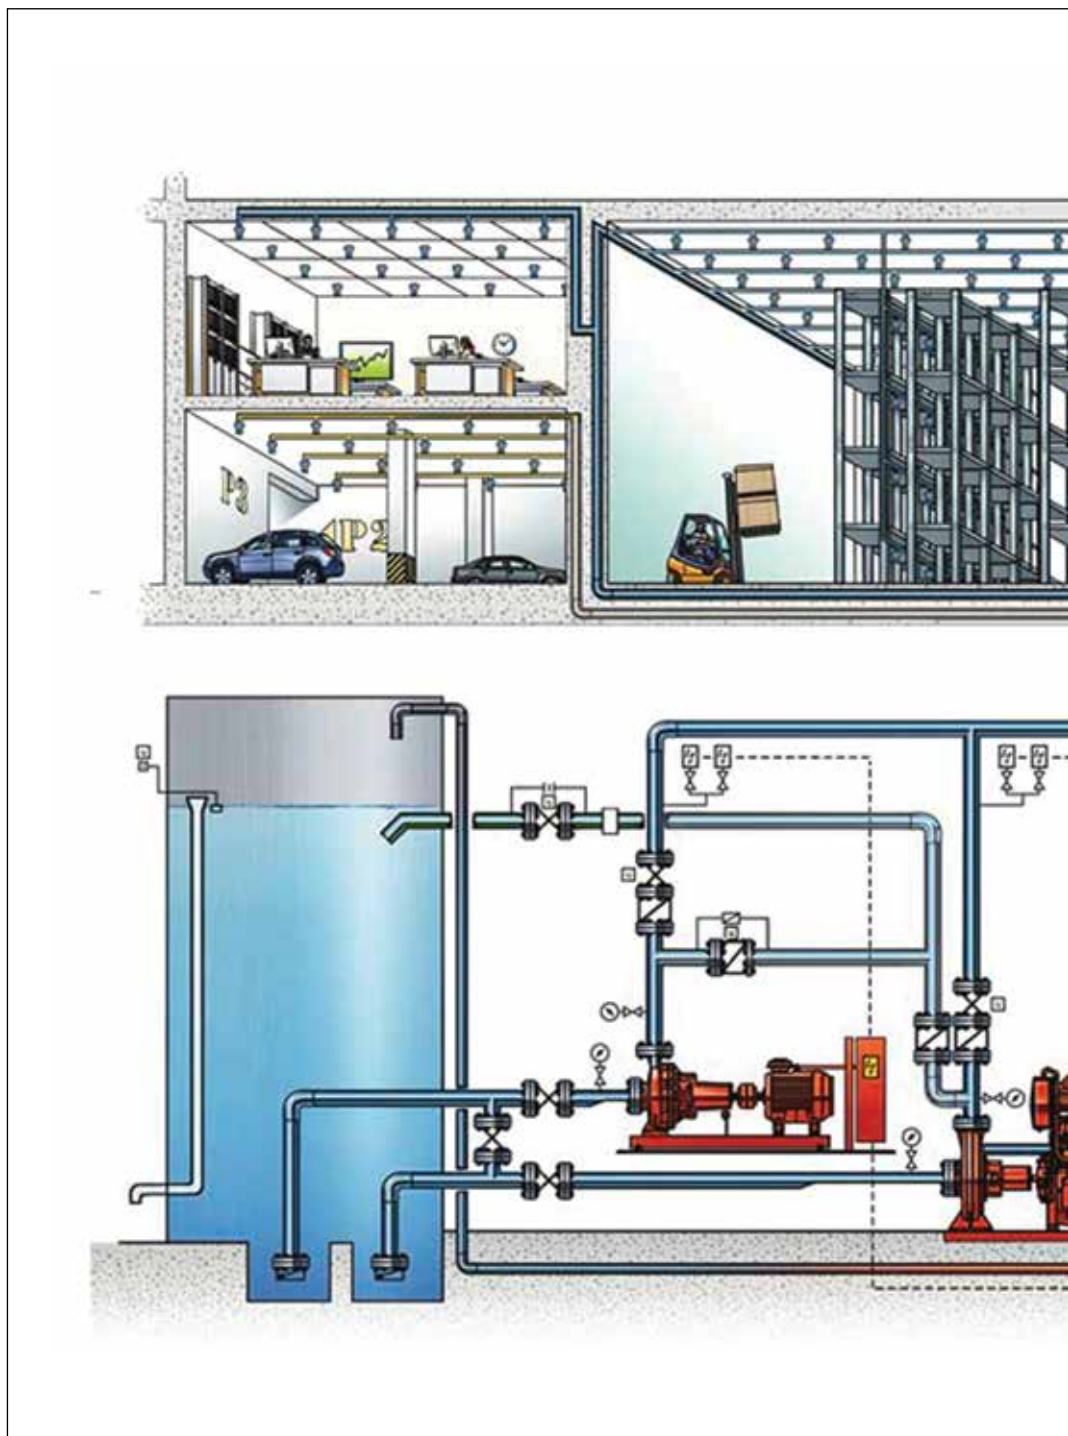

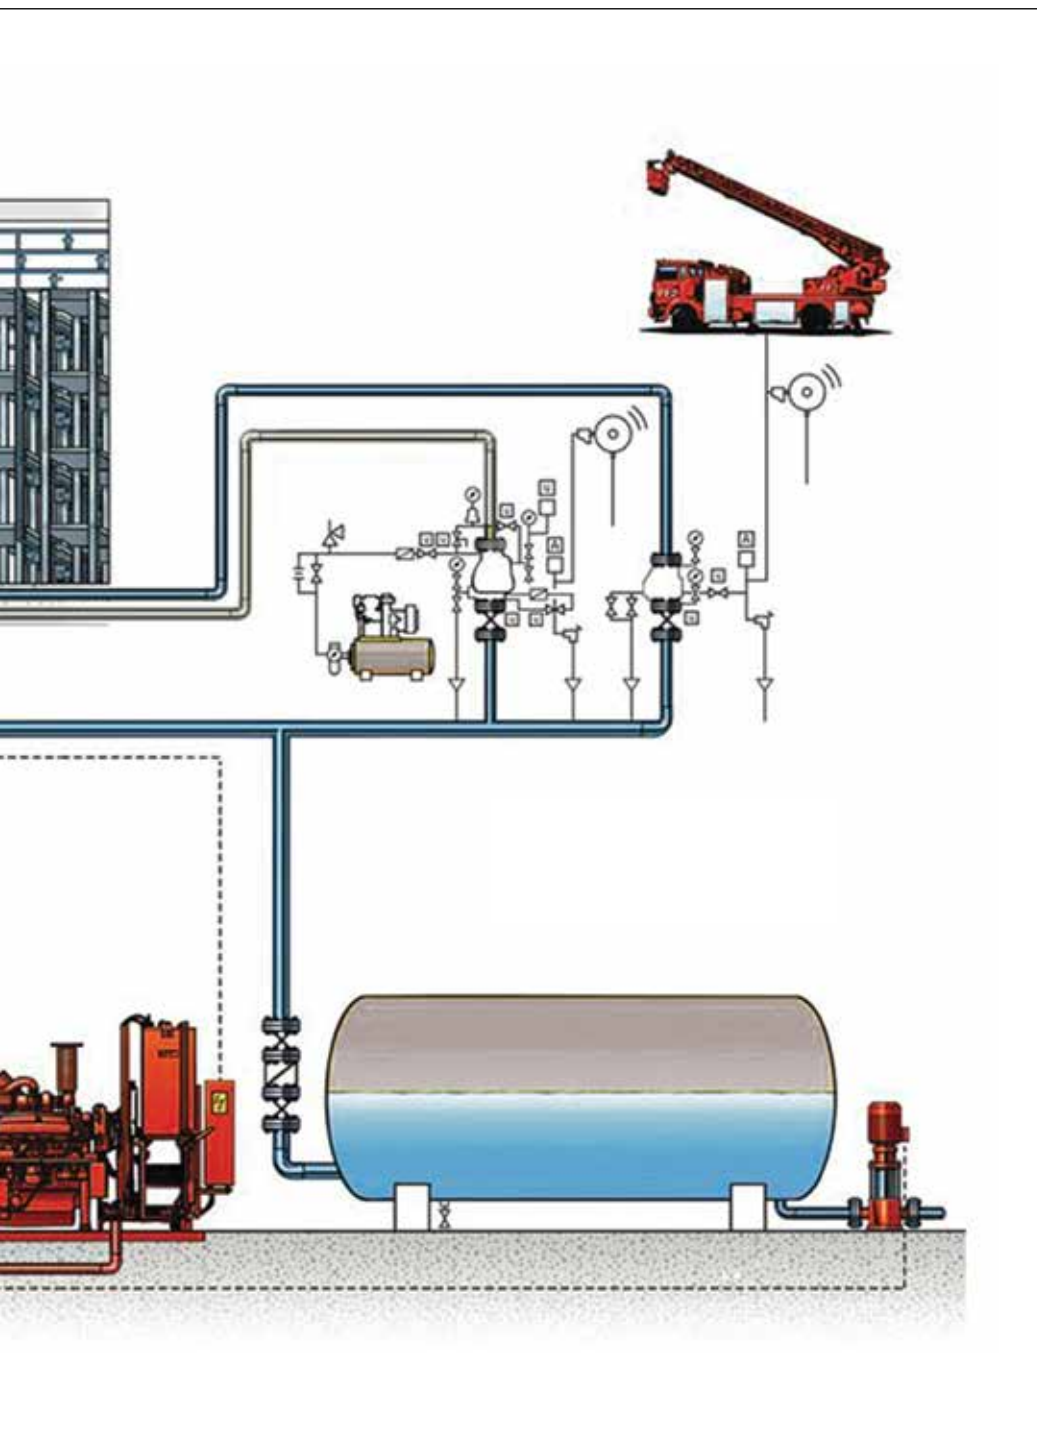

Multi Stage Multi Outlet Pumps (MSMO)

WK-WKS

Capacity :
up to 273 m³/hr.

Head :
up to 530 m

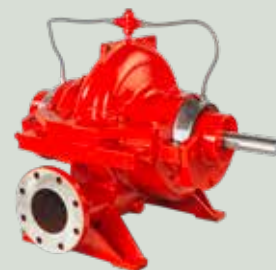

Horizontal split case pump

Gamma / Omega

Capacity : up to 2100 m³/hr.

Head : up to 160 m

Terrace Booster Pumps

Ultra+ FF (Firefighting)

Capacity : up to 54 m³/hr.

Head : up to 53 m

Etabloc

Capacity : up to 350 m³/hr.

Head : up to 160 m

Multi Stage Single Outlet Pumps (MSSO)

WK-WL

Capacity :
up to 273 m³/hr.

Head :
up to 780 m

Containerised
Firefighting sets.**

Panels & Accessories

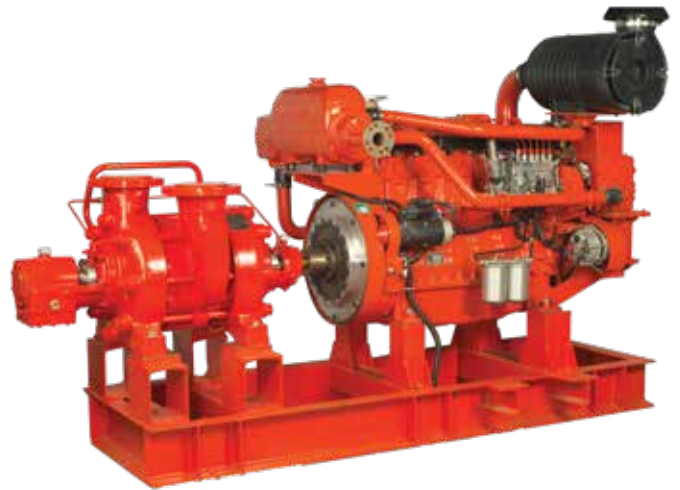

KSB Fire Pumpset Package

We manufacture and supply complete pump sets designed, assembled and tested at **KSB factory**, made as per fire regulations

Complete packages can be supplied with electric motor, diesel engine and jockey pump on one baseplate, with control cabinets, tank, batteries, etc.

The supervision of erection and commissioning, service and maintenance can be carried out by our qualified Service staff as required.

Certifications

KSB India has a wide range of UL-listed and FM Approved firefighting pump sets.

These pumps meet the highest standards of safety and property loss prevention for use across all the facilities like Datacenters, Airports, Metros, Hospitals, Commercial hubs, etc.

UL448

UL Standard For Safety Centrifugal Stationary Pumps for Fire Protection Service

1311

FM Certificate for Centrifugal Fire Pumps Split-Case Type

1319

FM Certificate for Centrifugal Fire Pumps (Horizontal, End Suction Type)

A close-up, low-angle shot of two firefighters. They are wearing bright yellow helmets with black visors and orange protective gear. They are positioned in front of a large fire, with bright orange flames and thick white smoke visible in the background. The firefighters are looking down, focused on their task. The image has a high-contrast, dramatic feel with a red overlay at the bottom.
